GD-PR12-4DN2
Inductive sensor

Characteristic

Detection surface diameter: M12

Detection distance: 4mm

Installation: Non-flush

Standard test substance: 12 × 12 × 1mm (iron)

Model:GD-PR12-4DN2

Wiring and power supply: DC 3-wire

Detection surface diameter: M12

Detection distance: 4mm

Installation: Non-flush

Standard test substance: 12 × 12 × 1mm (iron)

Consumption current: Max.10mA

Control output: NPN NC

Material: Brass (Nickel Plated)

Cable specification/material: Standard cable

Protection level: IP67
